**Abstract**

This abstract provides a concise summary of the report, outlining its key objectives, methodology, and findings to give the reader a quick overview of the content.

**Contents**

<b>1</b>	<b>Introduction</b>	<b>2</b>
<b>2</b>	<b>Conclusion</b>	<b>2</b>

# 1 Introduction

Introduce the topic and set the context for the rest of the document. We can cite a source by using the `\citet{}` command for textual citations, where the author's name is part of the narrative (e.g., Vaswani (2017) shows us that this is true), or `\citep{}` for parenthetical citations, where the citation appears in parentheses (e.g., some fact from some paper (Vaswani, 2017)). Note that these citations follow the APA format.

# 2 Conclusion

Summarise the findings and state the conclusions drawn from the research or analysis.

# References

A Vaswani. Attention is all you need. *Advances in Neural Information Processing Systems*, 2017.
