Abstract

This abstract provides a concise summary of the report, outlining its key objectives, methodology, and findings to give the reader a quick overview of the content.

Contents

1   Introduction

Introduce the topic and set the context for the rest of the document. We can cite a source by using the $\backslash$citet{} command for textual citations, where the author's name is part of the narrative (e.g., Vaswani (2017) shows us that this is true), or $\backslash$citep{} for parenthetical citations, where the caption appears in parentheses (e.g., some fact from some paper (Vaswani, 2017)). Note that these citations follow the APA format.

2   Conclusion

Summarise the findings and state the conclusions drawn from the research or analysis.
